CAME CONNECT

CLOUD CONNECTED TECHNOLOGY

Today smartphones and tablets have become part of our lifes.

These devices have become irreplaceable aids in our lives; thanks to apps that bring us control over new functions every day.
Touching, seeing and listening are now all limitless.
It's now all in your grasp.

At CAME **we have developed** a series of **custom apps** to control all of our products. Even from a remote location.
And now we've gone even further.

We've improved the interaction between professional installers and private users. That's how the **CAME CONNECT** web platform was born, to enable installers to map out all the systems while providing immediate assistance to their customers.

Enter the world of CAME CONNECT. Check out our CAME apps.

From today, your customers' wellbeing is in your hands.
Even from a remote location.

WE CONNECT. YOU CONTROL.

Enter CAME CONNECT as a PROFESSIONAL

It's simple! Just register on **cameconnect.net** to become a CONNECT specialist.
You'll be able to immediately map out your customers and start doing **business in the new way**.

A revolutionary new system that offers you numerous benefits:

- geopositioning of systems;
- remote diagnosis (tele-assistance);
- remote changing of settings (with customer authorisation);
- scheduled-maintenance alerts;
- malfunction alerts.

Enter CAME CONNECT as a PRIVATE USER

Just register on cameconnect.net to find out about the new **CAME CONNECT user app**. You'll be able to quickly and easily **manage CAME products** directly on your smartphone or tablet. Even from a remote location.
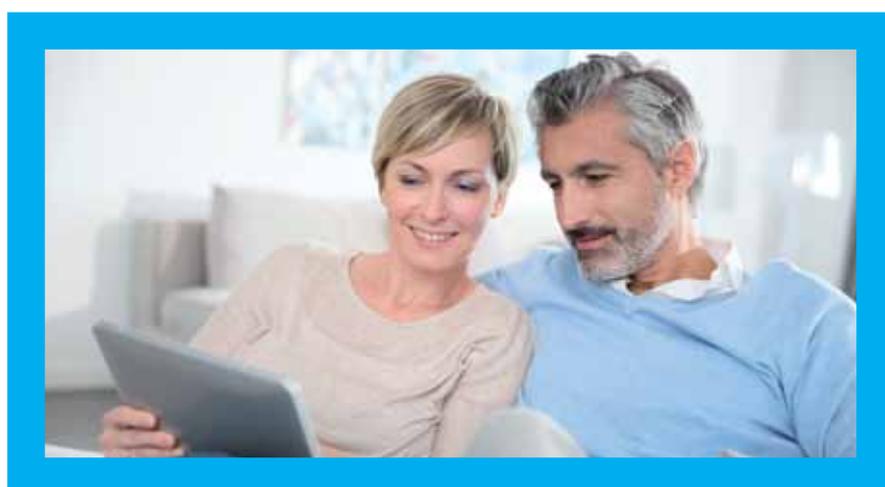

We have **engineered four** apps to enhance your life and interaction with **CAME products**.
Available for smartphones and tablets, for both iOS and Android, **they are freely downloadable** from the Apple App Store and Google Play Store.
All of these apps have intuitive interfaces to let you manage your system at a click.

Just enter your CAME CONNECT **credentials when** first accessing so that your app will automatically synchronise **with** the system.

Wherever you are, whenever you want, you'll have total control of your operators, video entry, security, heating and domotics - all in the palm of your hand.

AUTOMATION App

CAME | CAME

The latest AUTOMATION app lets you manage your CAME operators, even from a remote location.

Do you want to control one or more operators from your smartphone?
Add the CONNECT **GW gateway** to your system to connect it to the web.
There are three available connection types:

- GSM (via SIM data card)
- Wi-Fi (connecting to the domestic Wi-Fi network)
- LAN (connecting, via Ethernet cable, to the router)

Opening, closing and checking the state of your CAME operators, from your portable device is now possible.

BENEFITS

CONTROLS
Open / Close / Stop

DIAGNOSIS
Malfunctions and errors

CUSTOMISATION
Background and layout of the app

CHECK
State of the operator

MULTISYSTEM
Manage several operators

XIP MOBILE App

CAME | bpt

The XIP MOBILE app lets you manage any calls from your audio/video entry system, directly on your smartphone or tablet.

Do you want to see who is ringing the doorbell, even when you're not home?
With **XIP MOBILE** you can receive calls and scan your outdoor perimeter, on your handheld device, even when you are away from home.
There's no need for any additional devices or special configurations. Just connect the system to your home's router.

Now you can answer, check the video cameras live images and open the front door, all from your smartphone.

BENEFITS

VIDEO CALL
Preview, either on-site or off-site, on smartphone, tablet or IP terminal

DOOR OPENER
Up to 10 remotely controllable auxiliary-relay switches

REMOTE/LOCAL SWITCH
Intelligent management of the connection

VIDEO CHECK
Live imaging from the entry panel video camera

LIST OF CONTACTS
Contacts automatically synchronise with the app

COMPATIBLE PRODUCTS

All installations with the following systems:
- **IP360**
- **XIP**

DOMOTIC 3.0 App

(for burglar alarm systems)

CAME

The DOMOTIC 3.0 app lets manage your entire CAME burglar alarm system, while keeping all areas of your home under control.

Do you want to go out and keep an eye on your home?
The DOMOTIC 3.0 app lets you **control all of the rooms** in your home, whenever and wherever you want, on your handheld device. You'll be able to monitor all of the detectors installed in every area of your home, and if an alarm is triggered, the detector in question will be highlighted.

Now you can manage rooms, arm and disarm the burglar alarm, and view images and video footage generated by detectors fitted with video cameras, all through the video check function on your smartphone or tablet.

CLOUD
Automatic synchronisation of the system on smartphone or tablet

VIDEO CHECK
View images and video footage from cameras fitted with detectors
